REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art does not teach or fairly suggest methods or apparatus for heating glass panels in a tempering furnace as claimed wherein convection heating elements are disposed under conveyor rollers and aligned lengthwise of the furnace defining convection heating zones side by side in a lateral direction of the furnace. The references cited illustrate prior art attempts to control heating across the lateral direction of a furnace wherein electrical resistance elements disposed beneath conveyor rollers are controlled independently. Also, the Land patent (5,620,492) disclosed quenching air ejectors which were independently adjustable (see claim 9). The quenching manifolds were disposed transverse to the length of the furnace. It would not have been obvious to turn the Land manifolds to be aligned lengthwise of the furnace or to make convection heating elements arranged thus.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sean E. Vincent whose telephone number is (571) 272-1194. The examiner can normally be reached on M - F (8:30 - 6:00).
4. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven P. Griffin can be reached on (571) 272-1189. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

5. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
